The Open-Office Concept Is Dead

Design an office space with better acoustics for employee productivity

According to a study conducted by the University of California, Berkeley, where 63,000 people from across continents were surveyed over the past decade, more than half of office workers are dissatisfied with the level of 'speech privacy' leading to disruption in their work.

Ufficio open space? Il 42% non sopporta le chiacchiere, il 41% sogna l'ufficio vecchio stile

Il rumore in ufficio distrugge la produttività

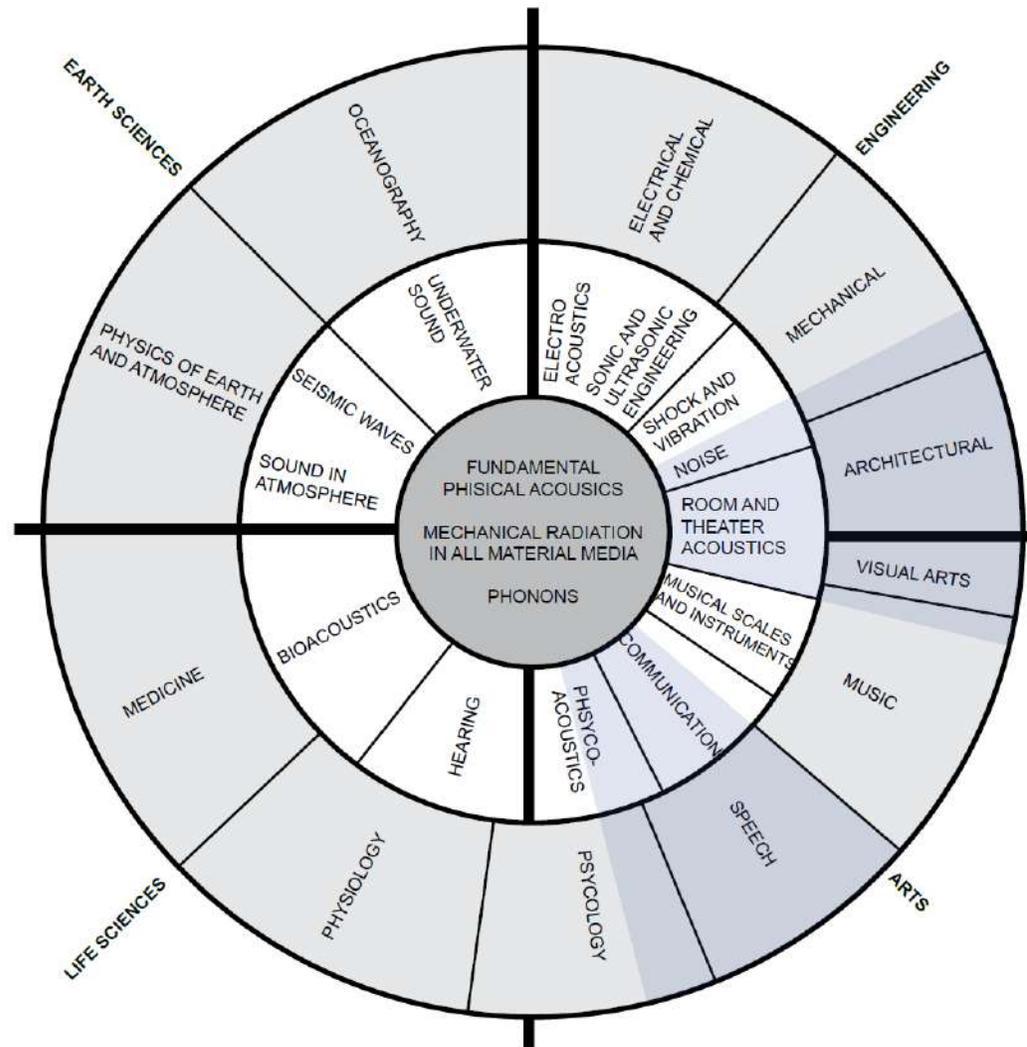

Investimento ovvio: gli open space sono sempre più diffusi, ma il prezzo da pagare per questi ambienti non è da sottovalutare.
